TABLE OF CONTENTS

INVITED PAPERS BY TOPIC

I. **HOW MUCH IS YOUR EX-SPOUSE WORTH? VALUING HOME PRODUCTION INTERNATIONALLY, IN THE U.S., AND LEGALLY**

Organizer: SANDRA K. McKENZIE, McKenzie Associates Consulting
Chair: MARIANNE A. FERBER, University of Illinois

Labor, Leisure and Home Production: Implications of the New International Standards for Statistics. CARMEL U. CHISWICK, University of Illinois, Chicago 1

Reservation Wage Assessments of the Value of Home Production — Patterns from the 1970's. CATHLEEN D. ZICK, University of Utah; W. KEITH BRYANT, Cornell University 6

Division of Marital Property in a Sequential-Game Framework. CAROL C. FETHKE, NANCY HAUSERMAN, University of Iowa 15

Discussion. JANICE PESKIN, Congressional Budget Office 22

II. **STATISTICAL PACKAGES IN TIME SERIES**

Chair/Organizer: DAVID F. FINDLEY, U.S. Bureau of the Census

TIMESLAB: A Time Series Analysis Laboratory. H. JOSEPH NEWTON, Texas A&M University 25

TIMSAC-84: A New Time Series Analysis and Control Package. MAKIO ISHIGURO, The Institute of Statistical Mathematics, Tokyo, Japan 33

III. **ECONOMETRIC MODELS OF COST AND PRODUCTION FUNCTIONS: SOME COMPARISONS**

Organizer: EDWARD C. KOKKELENBERG, State University of New York at Binghamton
Chair: CHARLES W. BISCHOFF, State University of New York at Binghamton

The Relationship Between Various Criteria for the Evaluation of Flexible Functional Forms. JOSEPH G. HIRSCHBERG, Southern Methodist University 43

Comparison of Dynamic Factor Demand Models. PETER E. ROSSI, University of Chicago 49

Forecasting Comparison of Three Flexible Functional Cost Forms. EDWARD C. KOKKELENBERG, State University of New York at Binghamton; SANG V. NGUYEN, U.S. Bureau of the Census 57

Discussion. ARNOLD ZELLNER, University of Chicago 65

IV. **THEME SESSION: APPLICATIONS OF RECENT METHODOLOGY IN BAYESIAN ANALYSIS OF DYNAMIC MODELS — THE KALMAN FILTER AND BEYOND**

Chair/Organizer: JAMES C. SPALL, Johns Hopkins University

Applications of Smoothness Priors in Time Series. WILL GERSCH, University of Hawaii 66

Bayesian Signal Estimation for State Space Models. CRAIG F. ANSLEY, ROBERT KOHN, University of New South Wales, Australia 75

Discussion. JOHN L. MARYAK, Johns Hopkins University 80

V. **MAKING STATISTICS MORE EFFECTIVE IN SCHOOLS OF BUSINESS**

Chair/Organizer: GEORGE C. TIAO, University of Chicago

Making Statistics More Effective in Schools of Business. GEORGE EASTON, HARRY V. ROBERTS, GEORGE C. TIAO, University of Chicago 83

Discussion: ROBERT B. MILLER, University of Wisconsin, Madison 86

VI. ACCOUNTING FOR ERRORS IN VARIABLES IN STATISTICAL INFERENCE

Organizer: STEVEN KLEPPER, Carnegie Mellon University
Chair: EDWARD E. LEAMER, University of California, Los Angeles

Measurement Error Models for Time Series. JOHN L. ELTINGE, Iowa State University 88

Applying Regressor Diagnostics for the Errors-in-Variables Model. STEVEN KLEPPER, MARK KAMLET, Carnegie Mellon University 95

Errors of Measurement and Internal Consistency in Economic Models Based on Social Accounting Matrices. MICHAEL J. HARTLEY, University of California, Riverside 101

VII. DATA ANALYSIS PROBLEMS IN TIME SERIES ANALYSIS

Organizer: CRAIG F. ANSLEY, University of New South Wales, Australia
Chair: HARRY V. ROBERTS, University of Chicago

A Fast Algorithm for Smoothing, Cross-Validation and Influence in State Space Models. ROBERT KOHN, CRAIG F. ANSLEY, University of New South Wales, Australia 106

Discussion. WILL GERSCH, University of Hawaii 114

VIII. HETEROGENEITY AND CONSUMER CHOICE

Organizer: SID R. DALAL, Bell Communications Research
Chair: ALAN E. GELFAND, University of Connecticut

Multi-Stage Models of Choice: A Rational Expectations Approach. RUSSELL S. WINER, Vanderbilt University 116

IX. RECENT IMPROVEMENTS AND FUTURE DEVELOPMENTS IN BUSINESS SURVEYS

Chair/Organizer: ROBERT LUSSIER, Statistics Canada

Modernizing the Current Employment Statistics Program. GEORGE S. WERKING, ALAN R. TUPEK, U.S. Bureau of Labor Statistics 122

A Generalized Methodology for Economic Surveys. MICHAEL COLLEDGE, ROBERT LUSSIER, Statistics Canada 131

Recent Sample Revisions and Related Enhancements for Business Surveys of the U.S. Bureau of the Census. JOSEPH K. GARRETT, RUTH E. DETLEFSEN, CAROL S. VEUM, U.S. Bureau of the Census 141

The Integrated Surveys Processing Network (ISPN) of the U.S. Bureau of the Census. CARL A. KONSCHNIK, SHIRIN A. AHMED, LAWRENCE R. IMPETT, U.S. Bureau of the Census 150

CONTRIBUTED PAPERS BY TOPIC

I. PRODUCTIVITY AND LABOR

Chair: RONALD D. KUTSCHER, U.S. Bureau of Labor Statistics

SSI and Labor Supply: Econometric Issues in the Labor Supply of the Low Income Aged. JAMES E. DUGGAN, U.S. Department of Treasury; KIMBERLY D. ZIESCHANG, U.S. Bureau of Labor Statistics 159

Use of a Scanning Generalized Least Squares Procedure. ANDREW W. BRAUNSTEIN, Iona College 165

Job Characteristics and Health Status Effects on Retirement Behavior. GILBERT NESTEL, Ohio State University; THOMAS N. CHIRIKOS, University of South Florida 169

Monetary Aggregation Using the Aggregate Production Function. HONG V. NGUYEN, University of Scranton 175

Public Sector Productivity: The Sensitivity of Productivity Indexes. DIANE F. WOODBURY, U.S. Bureau of Labor Statistics 181

II. **ERRORS IN VARIABLES, NUISANCE PARAMETERS, AND MULTICOLLINEARITY**

Chair: EUGENE M. BURNS, Energy Information Agency, U.S. Department of Energy

Measurement Error and the Estimation of Regression Coefficients — A Brief Case Study. JOHN H. HERBERT, Energy Information Agency, U.S. Department of Energy 187

Specification Errors in Dynamic Models. KRISHNA KADIYALA, Algoma University College, Canada 191

A Confidence Region for the Slope Parameter in Errors in Variables Model. NAVEEN K. BANSAL, University of Pittsburgh 195

Finite Sample Properties of Theil's Measure of Multicollinearity Effect. J.S. MEHTA, Temple University; P.A.V.B. SWAMY, Federal Reserve Board 198

III. **MODELS OF COST AND PRODUCTION FUNCTIONS**

Chair/Organizer: EDWARD C. KOKKELENBERG, State University of New York at Binghamton

The Role of Money in the U.S. Manufacturing Production Function. SANG V. NGUYEN, U.S. Bureau of the Census 204

Continuous-Time Dynamic Investment Model with Adjustment Costs and Gestation Lags. PETER ZADROZNY, U.S. Bureau of the Census 210

Flexible Functional Forms: An Application of the Translog and Barnett Translog Models. PATRICIA BUCKLEY FREDERICK, U.S. Congress Joint Economic Committee; M. DANIEL WESTBROOK, Georgetown University 216

Estimating Economies and Efficiencies in Production. GARY D. FERRIER, Southern Methodist University; C.A. KNOX LOVELL, University of North Carolina 222

Interregional Variations in Productivity Growth and the Structure of Production in the U.S. Food and Kindred Products Industry. SCOTT A. MONROE, ANANDI P. SAHU, Oakland University 226

IV. **STATISTICS IN THE OIL INDUSTRY**

Chair/Organizer: PAUL WAKIM, American Petroleum Institute

Sample Frame Development for a National Survey of Underground Motor Fuel Storage Tanks. JUDITH L. STRENIO, STEPHEN K. DIETZ, Westat, Incorporated 232

A Strategy for Benzene Exposure Measurement in a Chemical Refining Plant. LOUISE KERN, Texaco Incorporated 238

Identification of Anomalous Values in Energy Data. RENEE MILLER, Energy Information Administration, U.S. Department of Energy; WILLIAM MERONEY, ELIZABETH TITUS, Science Applications International Corporation 241

Applied Statistics: A Mobil Corporate Resource. BARRY MILCAREK, Mobil Corporation 247

Residential Transportation Energy Consumption Survey. ROBERT B. LATTA, Energy Information Administration, U.S. Department of Energy 249

V. **THE LABOR FORCE: INCOME AND SUPPLY ISSUES**

Chair: THOMAS J. PLEWES, U.S. Bureau of Labor Statistics

Estimates of Tip Earnings for Non-Restaurant Services: 1982-1984. ROBERT B. PEARL, University of Illinois; KEVIN F. McCROHAN, George Mason University 254

Marital Instability and Women's Labor Supply. JULIA A. HEATH, Memphis State University 259

White and Nonwhite Married Female Labor Force Participation—A Two-Limit Probit Approach. LAKHBIR SINGH, Robert R. Nathan Associates, Incorporated; LIEN-FU HUANG, Howard University 264

Search Intensity and the Aggregate, Weighted Unemployment Index. BONG JOON YOON, State University of New York at Binghamton 270

Impact of State Aid to Education on Wealth Neutrality: South Carolina, 1977–1986. ELCHANAN COHN, MELINDA S. SMITH, University of South Carolina 276

VI. INVESTMENT AND PORTFOLIO ANALYSIS

Chair: FRANCIS X. DIEBOLD, Federal Reserve Board

Monthly Gold Forecasts, Stationary Residuals, from Nonstationary Models. JOHN T. SENNETTI, RICHARD C. PETERSON, MATT WALKER, Texas Tech University 280

A Method of Estimating the Standard Errors of Empirical Bayes Estimators in a Linear Random Coefficent Regression Model. K.R. KADIYALA, Purdue University; DENNIS OBERHELMAN, University of South Carolina 284

Alternative Specification and Estimation Methods for Determining Random Coefficient Betas: Comparison and Extensions. CHENG F. LEE, University of Illinois; DAVID C. CHENG, University of Alabama; EDWARD L. BUBNYS, Memphis State University 290

Testing the Capital Asset Pricing Model: Some Robustness Issues. PREM P. TALWAR, University of Alberta, Canada 296

Stable Laws in Multidimension and Portfolio Analysis. PANKAJ GHOSH, University of the District of Columbia 302

VII. TIME SERIES — MODELING

Chair: ALAN PANKRATZ, DePauw University

Time Series Model Identification in the Presence of Trading Day Variation. TERESITA S. SALINAS, Washburn University; STEVEN C. HILLMER, University of Kansas 304

Factorial Analysis of Multiple Time Series. BERNARD BURTSCHY, Ecole Nationale Superieure des Telecommunications, Paris, France 310

Selecting the Order of ARMA Models for Short Realizations. FAHIMEH REZAYAT, University of Virginia 315

VIII. RESIDUAL STRUCTURE AND DATA STRUCTURE IN REGRESSION

Chair: JOHN HERBERT, Energy Information Agency, U.S. Department of Energy

The Estimation of a Heteroscedastic Linear Model Using Inventory Data. ALAN ROSHWALB, Georgetown University 321

Two Approximate Tests for Comparing Heteroscedastic Regression Models. MICHAEL D. CONERLY, EDWARD R. MANSFIELD, University of Alabama 327

Imputing for Missing Survey Data: Energy Consumption in Commercial Buildings. EUGENE M. BURNS, Energy Information Administration, U.S. Department of Energy 333

An Approximation to the Null Distribution and Power Properties of the Durbin–Watson and Generalized Durbin–Watson Statistics: Case of Non–Normal Errors. SUBHASH C. SHARMA, Southern Illinois University; MUKHTAR M. ALI, University of Kentucky 339

A Problem Caused by Collinearity When Fitting Least Squares Splines to Data. THOMAS CAPIZZI, ROBERT D. SMALL, Merck & Company, Incorporated 343

Discussion. J.S. MEHTA, Temple University 347

IX. MONEY AND CAPITAL II

Chair: GLENN D. RUDEBUSCH, Federal Reserve Board

Measuring the Cost of Capital When Depreciation Rates Are Not Geometric. ROBERT GILLINGHAM, JOHN S. GREENLEES, U.S. Treasury Department 349

A Method for Estimating Capital Stock. AN–LOH LIN, JI CHOU, Chung–Hua Institution for Economic Research 355

The Information Content of Weekly Money Stock Announcements. YU-SHENG HSU, Georgia State University; CHWEN-CHI LIU, National Sun Yat-sen University; EDWIN F. ULVELING, Georgia State University 360

Information Needs of Financial Statement Users in Predicting Changes in Cash Flows. H. ESPAHBODI, Northeastern University; P. ESPAHBODI, Bentley College; J. SOROOSH, Loyola College 364

Taking the "Con" from Econometrics: An Operational Subjective Approach. GAIL BLATTENBERGER, University of Utah 370

Evaluating Gambles with High Payoff-Small Probability Outcomes, Based on N-Repetitions. B.H. EICHHORN, M. AHSANULLAH, Rider College 376

X. REGRESSION TOPICS: NONNESTED HYPOTHESIS TESTS, CONSTRAINED ESTIMATION, AND EXTRAPOLATION

Chair: JACKIE TELFORD, Johns Hopkins University

Small Sample Properties of Multivariate Nonnested Hypothesis Tests. JAMES A. CHALFANT, ISRAEL FINKELSHTAIN, University of California, Berkeley 379

A Closed Form Solution for the Least Squares Regression Problem with an Arbitrary Number of Linear Inequality Constraints on the Parameters. BRADLEY O. SKARPNESS, Virginia Polytechnic Institute and State University; LUIS A. ESCOBAR, AT&T Bell Laboratories 385

Defining Extrapolation in a Regression Model. STEVEN S. CARROLL, DANIEL G. BROOKS, WILLIAM A. VERDINI, Arizona State University 389

A Comparison of Several Approximations to the Power Function of the Likelihood Ratio Test in Covariance Structure Analysis. ALBERT SATORRA, University of Barcelona, Spain; WILLEM E. SARIS, University of Amsterdam, The Netherlands; W. MARIUS DE PIJPER, Free University of Amsterdam, The Netherlands 393

Discussion. FRANK A. WOLAK, Stanford University 399

XI. HOW GOOD ARE ECONOMETRIC MODELS?

Chair/Organizer: DAVID FREEDMAN, University of California, Berkeley

What Do Microeconometricians Really Do? DANIEL McFADDEN, Massachusetts Institute of Technology 402

XII. FINANCIAL RISK: TOPICS IN INSURANCE AND BANKING

Chair/Organizer: EDWARD FREES, University of Wisconsin

A Statistical Method for Social Insurance Claims. H. DENNIS TOLLEY, MICHAEL D. BAHR, Brigham Young University 406

A Multivariate Problem Savings and Loan Identification Model. DAVID E. BOOTH, PERVAIZ ALAM, SHARIF N. AHKAM, BARBARA OSYK, Kent State University 411

An Iterative Procedure for Prescribed Variance Univariate Stratification Applied to Statistical Auditing. K.W. HEINER, State University of New York College at New Paltz; PATRICK J. ROOHAN, New York State Health Department 416

XIII. BAYESIAN METHODS IN REGRESSION AND ESTIMATION

Chair: WILLIAM M. SALLAS, IMSL

The Logistic Normal Distribution for Bayesian, Nonparametric Regression. PETER J. LENK, New York University 420

VAR Priors and Economic Theory. GERALD NICKELSBURG, Douglas Aircraft Company; LEE OHANIAN, Security Pacific National Bank 423

Bayesian Estimation of Quantiles of Circular Error from Non-I.I.D. Data. JOHN L. MARYAK, JAMES C. SPALL, Johns Hopkins University 427

Inflation Uncertainty and Interest Rates. KAJAL LAHIRI, State University of New York at Albany; CHRISTIE TEIGLAND, New York State Department of Civil Service; MARK ZAPOROWSKI, Canisius College 431

XIV. DISCRIMINATION, CLASSIFICATION, AND FACTOR ANALYSIS

Chair: YAHIA Z. AHMED, Energy Information Agency, U.S. Department of Energy

Classification Using Robust Multivariate Estimation with Financial Applications. NANCY JO DELANEY, Northeastern University 436

A Low-Dimensional Representation for Comparing Multivariate Samples. VIRGIL R. MARCO, Oklahoma State University; DEAN M. YOUNG, DANNY W. TURNER, Baylor University 439

A Statistical Analysis of Factors Affecting Professional Sports Teams' Chances of Winning. MARK L. TRENCHER, Aetna Life and Casualty Company 444

Use of the Proportional Hazards Model in Modeling the Residual Lifetime Distribution of Corporations. G. KARAMESSINIS, S.W. LOONEY, J.W. WANSLEY, Louisiana State University 447

XV. OUTLIERS IN TIME SERIES

Chair/Organizer: GRETA LJUNG, Massachusetts Institute of Technology

The Effects of Outliers on the Estimates in and the Forecasts from ARIMA Time Series Models. JOHANNES LEDOLTER, University of Iowa 453

EM Algorithm and the Estimation of Time Series Models in the Presence of Outliers. BOVAS ABRAHAM, ALICE CHUANG, University of Waterloo, Canada 459

On the Empirical Influence Functions of Residual Autocorrelations in Time Series. W.K. LI, University of Hong Kong; Y.V. HUI, Chinese University of Hong Kong 465

On the Impact of Outliers on Seasonal Adjustment. STUART SCOTT, U.S. Bureau of Labor Statistics 469

Discussion. CHUNG CHEN, Washington State University 475

XVI. SEASONALITY IN TIME SERIES

Chair: PHILLIP CARTWRIGHT, University of Georgia

Non-Stationarity and Induced Seasonality in Inventories. ERIC GHYSELS, Universite de Montreal, Canada 477

An Evaluation of Concurrent Seasonal Adjustment for the Major Labor Force Series. GEORGE R. METHEE, ROBERT J. McINTIRE, U.S. Bureau of Labor Statistics 482

Alternative ARIMA Forecasting Horizons When Seasonally Adjusting Producer Price Index Data with X-11-ARIMA in Concurrent Mode. JAMES A. BUSZUWSKI, U.S. Bureau of Labor Statistics 488

Modified F-Test for the Presence of Stable Seasonality. BRAJENDRA C. SUTRADHAR, Memorial University of Newfoundland, Canada; IAN B. MacNEILL, University of Western Ontario, Canada 494

XVII. QUALITY CONTROL AND QUALITY ASSURANCE

Chair: WILLIAM WINKLER, Energy Information Agency, U.S. Department of Energy

Total Quality Control for Nicaragua. SPENCER B. GRAVES, Hewlett Packard 500

Properties of the Taguchi Method of Design and Analysis for Off-Line Quality Assurance. LEONE Y. LOW, DANIEL T. VOSS, Wright State University 506

Implementing Statistical Quality Control in Forecasting. ELLIOT LEVY, U.S. Department of Commerce 512

Standardizing Statistical Methodology Through the Survey Processing and Management System. KAREN VLASEK O'CONOR, JOHN WOHLFORD, U.S. Bureau of Labor Statistics 518

XVIII. **TOPICS ON THE CONSUMER EXPENDITURE SURVEY**

Chair/Organizer: EVA E. JACOBS, U.S. Bureau of Labor Statistics

Omission Bias in the Estimation of Household Durable Goods Expenditures. GREGORY M. BROWN, U.S. Bureau of Labor Statistics 523

Estimates of the Income Elasticity of Expenditures for Food in 1985. RAYMOND W. GIESEMAN, BRENT R. MOULTON, U.S. Bureau of Labor Statistics 529

Expenditure Patterns of Single Women and Single Men. STEPHANIE SHIPP, U.S. Bureau of Labor Statistics 535

Consumer Price Index Revision: Improvements to Expenditure Weights. CHARLES C. MASON, ROBIN J. DUNCAN, CLIFFORD B. BUTLER, U.S. Bureau of Labor Statistics 541

Discussion. CHUNG L. HUANG, ROBERT L. RAUNIKAR, University of Georgia 547

XIX. **SUPPLY, DEMAND, AND INVENTORIES**

Chair: KENNON R. COPELAND, U.S. Bureau of Labor Statistics

Use of Lagged Residuals in Fitting Supply and Demand Functions. PURNELL H. BENSON, Rutgers—The State University 550

Maximum Likelihood Estimation and Durable Goods Demand. HAROLD E. DYCK, Southwest Missouri State University 556

Static and Dynamic Input Demands for U.S. Agriculture: A Comparative Evaluation. JOHN BAFFES, UTPAL VASAVADA, University of Georgia 562

Some Considerations on the Assessment of Terminal Dues. GERALDO SOUZA, University of Illinois at Chicago 567

XX. **STATISTICAL APPLICATIONS IN MARKETING**

Chair: JACK C. LEE, Bell Communications Research

Predicting Patient User Segments: A Comparison of Discriminant Analysis and Logistic Regression. MARGARET M. CAPEN, HAVVA J. MERIC, East Carolina University 571

An Application of Bootstrapping for Determining a Decision Rule for Site Location. PAUL BIEMER, SHERYL E. KIMES, New Mexico State University 575

Forecasting Advertising Effects Using Media Exposure Distribution Models: Some Test Market Results. KENT M. LANCASTER, University of Illinois; PETER E. HELANDER, GROWMARK, Inc. 580

Effects of Uncertainty About Subjective Reference Prices on Price Perceptions: An Empirical Bayes Approach. B. KEMAL BUYUKKURT, THOMAS J. TOMBERLIN, Concordia University, Canada 586

Statistical Analysis of the Price and Advertising Policy of a Local Tourist Attraction. GORDON C. McMEEKIN, Groton, Connecticut 590

The Cross Sectional Linear Time Series Model in the Presence of Qualitative Dependent Variables: An Empirical Application to the Estimation of Vacancy Probabilities. JAMIE FODEN HOWELL, Haverford College; STAVROS PERISTIANI, City University of New York, Queens College 596

XXI. **PRICE AND INDEX ANALYSIS**

Chair: ROBERT CASADY, U.S. Bureau of Labor Statistics

Aggregation Consistent Restriction Based Improvement of Local Area Estimators. WILLIAM C. RANDOLPH, KIMBERLY D. ZIESCHANG, U.S. Bureau of Labor Statistics 602

A New Approach to the Measurement of Prices. OTHMAR W. WINKLER, Georgetown University 608

The Loss Function Approach to Consumer Price Indexes. JEFFREY W. SMITH, U.S. Bureau of Labor Statistics 614

Adjustments for Quality Change in the CPI: An Update. PAUL A. ARMKNECHT, DONALD WEYBACK, U.S. Bureau of Labor Statistics 620

The Neighborhood Effect in Estimating Hedonic Price Models for Housing. RONALD L. TRACY, SCOTT A. MONROE, Oakland University 626

XXII. SELECTION AND ESTIMATION ISSUES IN REGRESSION AND TIME SERIES

Chair: WILLIAM P. CLEVELAND, Federal Reserve Board

An Iterative GLS Approach to Maximum Likelihood Estimation of Regression Models with ARIMA Errors. MARK OTTO, WILLIAM BELL, U.S. Bureau of the Census; J.P. BURMAN, University of Kent at Canterbury, United Kingdom 632

OLS as an Estimator of a Dynamic Model with ARMA Errors. ASATOSHI MAESHIRO, University of Pittsburgh 638

Adaptive Robust Methods for Regression Analysis Based on Cross-Validation Error. KHURSHEED ALAM, Clemson University; AMITAVA MITRA, Auburn University 643

Partially Adaptive Estimation of ARMA Time Series Models. JAMES B. McDONALD, Brigham Young University 649

On Vector Autocorrelation in Time Series. ROBERT CLEROUX, ROCH ROY, Universite de Montreal, Canada 654

A Note on the Use of Computer Algebra Systems and Econometric Applications. KATHY HAYES, JOSEPH G. HIRSCHBERG, D.J. SLOTTJE, Southern Methodist University 659

XXIII. MONEY AND CAPITAL I

Chair: ROBERT B. LITTERMAN, Goldman, Sachs and Company

Monetary Innovations, Market Share and Profitability: The 3rd Reserve District Experience. SEK H. LAI, AT&T 665

Distribution of Prices for Commodity Futures. GHASSEM HOMAIFAR, Middle Tennessee State University; BILLY P. HELMS, University of Alabama 671

Can Real Profits Be Consistently Earned in Foreign Arbitraging? EDMUND H. MANTELL, Pace University 677

The Relationship Between Exchange Rates and Prices: A Cross-Country Comparison. NEELA D. MANAGE, Florida Atlantic University 683

Statistical Analysis of Factors Promoting Successful Deposit Mobilization in Peru. PAUL BURKETT, University of Miami; ROBERT C. VOGEL, The World Bank 687

XXIV. BAYESIAN TIME SERIES MODELS

Chair: JOHN L. MARYAK, Johns Hopkins University

Initializing the Kalman Filter in the Nonstationary Case. WILLIAM BELL, U.S. Bureau of the Census; STEVEN HILLMER, University of Kansas 693

Forecasting with Stochastic Parameter Regression Models. JOEL B. COHEN, U.S. Postal Service 698

Forecasting Accounting Earnings in the Presence of Structural Change. CHUNG CHEN, Washington State University; C. JEVONS LEE, University of Pennsylvania 700

XXV. TOPICS IN TIME SERIES

Chair: ABDOLRAHMAN AZARI, University of California, Davis

The Measurement of Time Delay Between Input and Output Processes. LEONARD A. CUPINGOOD, WILLIAM W.S. WEI, Temple University 706

Stochastic Properties of Revisions in the Index of Leading Indicators. FRANCIS X. DIEBOLD, GLENN D. RUDEBUSCH, Federal Reserve Board 712

Experiments in Detrending of Time Series. MYRON MELNYK, Kent State University 718

Bootstrap Forecasts Versus Conventional Forecasts: A Comparison for a Second Order Autoregressive Model. MUN S. SON, University of Vermont; DONALD HOLBERT, East Carolina University; HOSNY HAMDY, University of Vermont 723

XXVI. PROBLEMS ASSOCIATED WITH GEOGRAPHY AND OTHER TOPICS

Chair: DWIGHT K. FRENCH, Energy Information Administration, U.S. Department of Energy

Tourism and the Economies of Mexican States. E.W. BUTLER, H. FUKUARI, J.B. PICK, University of California, Riverside 728

An Alternative Methodology for Multi-Regional Impact Analysis Within the Context of a Functional and Comprehensive Empirical System. M. RAY PERRYMAN, Baylor University 734

How Far to Reach Out: Analysis of Radio Korea Reception Data. JOO O. KOO, Northeastern Illinois University; JOO O. SHIN, Korean Broadcasting Systems 737

On Selection of Target Value and Adjustment Interval for a Process. C.P. KARTHA, University of Michigan-Flint 742

Fashionable Pursuits, Testing and Rational Economics. ROBIN ROWLEY, McGill University, Canada; RENUKA JAIN, Worcester State College 745

XXVII. TAIL ESTIMATION USING PARETOS AND PAIRWISE COMPARISONS

Chair: RENEE H. MILLER, Energy Information Agency, U.S. Department of Energy

Measures of Central Tendency for Censored Earnings Data from the Current Population Survey. SANDRA A. WEST, U.S. Bureau of Labor Statistics 751

Approximating Distributions for Simulated Mixtures of Exponentials. MRUDULLA GNANADESIKAN, JAYALAKSHMI NATARAJAN, Fairleigh Dickinson University 757

On Empirical Procedures for Estimating the Tail of a Quantile Function. BRUCE COOIL, Vanderbilt University 763

Sequential Estimation Procedure for Parameters in a Bradley-Terry Model of Paired Comparisons. C.C. CHEN, G. ULRICH, AT&T Bell Laboratories; J. SINGH, Temple University 769

Representation of Financial Accounting Ratios by the Power-Normal and Related Families of Distributions. W. GERALD PLATT, San Francisco State University 775

Testing Equality of Correlation Coefficients in Trivariate Normal Distribution. CHIEN-PAI HAN, University of Texas at Arlington 778

XXVIII. TIME SERIES: FORECASTING APPLICATIONS

Chair: STUART SCOTT, U.S. Bureau of Labor Statistics

Univariate and Multivariate ARIMA Versus Vector Autoregression Forecasting. MICHAEL L. BAGSHAW, Federal Reserve Bank of Cleveland 783

Vector Autoregressive Models for Business Forecasting. ELIZABETH L. ROSE, University of Southern California; JOSEPH A. MACHAK, University of Michigan 787

A Weekly Model of the U.S. Demand for Money. EVANGELOS O. SIMOS, University of New Hampshire; JOHN E. TRIANTIS, DEMIRHAN YENIGUN, AT&T Communications 793

Time Series Analysis of U.S. and Canadian Inflation and Unemployment: A Test of a Field-Theoretic Hypothesis. KENNETH L. CAVANAUGH, Maharishi International University 799

Combination of Forecasts: A Comparison of the Methods with the Least Amount of Information. MEHDI MOSTAGHIMI, Southern Connecticut State University 805

CONTRIBUTED PAPERS—POSTER SESSIONS

A New Adaptive Generalized Ridge Regression Estimator. SHEIN-CHUNG CHOW, Wyeth-Ayerst Laboratories; SONG-GUI WANG, University of Science and Technology of China 810

Bias in Econometric Forecasts of Aggregate Output and Inflation. CHARLES H. LITTLE, St. John's University 814

Adaptive Nonlinear Instrumental Variable Estimators. WILLIAM C. QUINN, Laurel, Maryland 820

Estimation of the Transition Probabilities of Stock Returns Under Different Investment Horizons. MOON K. KIM, JOHN J. CHAI, Syracuse University 826

Robustness of Pitman's Test of Correlated Variances. PATRICIA P. RAMSEY, Fordham University; PHILIP H. RAMSEY, City University of New York, Queens College 831

Analysis of Entrepreneurial Planning Behaviors: A Multivariate Approach. NICHOLAS C. TEEBAGY, JOHN A. SEEGER, JEFFREY C. SHUMAN, Bentley College 836

On Statistical Tests for Stochastic Dominance. R.C. PFAFFENBERGER, T.E. DIELMAN, Texas Christian University; W.E. STEIN, Texas A&M University 839

Transformations in Linear Models. JULIO L. PEIXOTO, University of Houston 845

Exact Confidence Intervals on Ratios of Variance Components in Regression Models with Random-Walk Coefficients. LYNN ROY LaMOTTE, ARCHER McWHORTER, JR., RAM A. PRASAD, University of Houston 850

The Misapplication of Observational Data: An Example and Alternative Approach. KRIS MOORE, JONATHAN TROWER, DEAN YOUNG, Baylor University 856

An Analysis of Covariance of Salary Levels for Male and Female Managers. CANDACE HAMNER, KRIS MOORE, DEAN YOUNG, Baylor University; CHARLOTTE SUTTON, Auburn University 860

Bayes Nonparametric Estimation of Economic Inequality Measures. ROBERT C. HANNUM, University of Denver 866

Non-Tenure Track Positions for New Doctorates in Academe. KAREN L. PICKERILL, HOWARD P. TUCKMAN, Memphis State University 868

0117D
